In October 2009, the Malaysian Communications and Multimedia Commission ("MCMC") has published a Standard Radio System Plan (SRSP) titled 'Requirements for Digital Multimedia Service (DMS) Operating In Frequency Band 1452 MHz to 1492 MHz' (later to be referred to as MCMC SRSP520DMS, which provides information on the minimum requirements in the use of the frequency bands. An electronic copy of the SRSP is available from http://www.skmm.gov.my/what_we_do/spectrum/srsp.asp.

Pursuant to section 6.7 of SRSP-520 DMS, MCMC would like to invite eligible persons to apply for apparatus assignment in frequency bands of 1452 MHz to 1492 MHz.

**REQUIREMENT AND CONDITION**

1. Eligible person who may apply for assignments must at the date of closing of the invitation is in possession of a valid Network Facilities Provider Individual (NFP(I)) licence, who provides radio communications transmitters and links.

2. The application must comply with the requirements set in the Communications and Multimedia Act (Spectrum) Regulations 2000 and MCMC SRSP-520 DMS.

3. The applicant is required to submit:-
   3.1 Detailed Business Plan (DBP) for 5 years plan, on how the spectrum could be best utilised to provide the DMS systems. The DBP could include but not limited to plans showing the proposed sites or locations and implementation timelines, coverage and services offered;

   3.2 Topographical maps which clearly show the coverage boundary of each proposed service area;

   3.3 Apparatus assignment application form together with the application fee (RM 60 per application) for each transmitter and receiver that are planned for coverage boundary of each proposed service area;

   3.4 Proposed channel (please refer to the SRSP 520 DMS for detail channelling plan) and the technology to be used; and

   3.5 Proposed DMS systems topology and its design together with capacity planning and requirements for the system in the required channel. Justification with supporting technical analysis is to be provided to support the bandwidth needs.

4. The applicant that demonstrates the most efficient use of spectrum resources for the DMS rollout in the specific service area will have an added advantage towards the selection for the assignment of the spectrum.
5. If selected, the successful applicant(s) shall pay for the full apparatus assignment fee and to deploy its DMS systems based on the submitted DBP within 12 months from the date of assignment.

6. In the event where the successful applicant(s) fail to utilise and deploy its DMS systems within 12 months from the date of assignment, the apparatus will be cancelled and assigned to the next qualified applicant who is in the queue.

7. Successful applicant(s) shall submit a half yearly report to MCMC outlining the steps to implement the DBP as at 30 June and 31 December of each year. The reports shall be submitted to the MCMC not later than 31 July and 31 January of each year for the period from January to June and from July to December respectively.

8. The applicant may include their preference for a particular arrangement of channels for each of the geographical area applied for. MCMC, however, reserves the right to decide on the final arrangement of the channels.

SUBMISSION OF THE APPLICATION

9. The application shall be submitted to MCMC in hard and soft copy in the following manner:

9.1 Application shall be provided in sealed envelopes in two (2) sets hard copy, including one original. The original shall be marked “Original” and another copy shall be marked “Copy”. The application shall also be submitted in electronic form (CD-ROM).

9.2 The complete application shall be submitted to:

Senior Director  
Resource Assignment Management Department  
Malaysian Communications and Multimedia  
Off Persiaran Multimedia,  
63000 Cyberjaya, Selangor

DATE AND TIME OF SUBMISSION

10. The complete application shall reach the Commission not later than 12 noon on 26 March 2010.
