

SKMM Tecnolab X'change 01/2010

Trunked Radio – Beyond Voice with TETRA

Tuesday, 30 November 2010, 8.30 am – 4.30 pm

SKMM Auditorium, Cyberjaya

Organized by:

Supported by:

SKMM Tecnolab X'change features seminars, workshops, lectures or talks to promote knowledge exchange in creating awareness and greater understanding on new product development, latest communications devices, tracking innovative applications and services, promoting local R&D and facilitating technology adoption. The series may be organised by SKMM or in collaboration with the universities, R&D institutions, designated Forums and industry stakeholders.

Over the years, trunked radio has evolved to serve growing demand for better technologies offering efficient usage and more services. Although majority of trunked radio systems today still operate in analogue mode, the demand for better performance and reliable system has shifted the strategic direction of vendors, service providers and users towards migration to digital systems such as based on TETRA platform. Digital trunked radio systems not only improve voice quality, enable voice encryption and allow more efficient use of spectrum, but also support the integration of voice and data as well as internet connectivity to meet Private Mobile Radio (PMR) user organisations' operational and mission critical needs.

Trunked Radio – Beyond Voice with TETRA is designed to create more awareness of TETRA data applications among PMR users who are predominantly relying on voice services, encourage local applications development and promote open system platform. There are a variety of exciting presentations and exhibitions to provide an insight of TETRA innovative products and applications. Participants will also have the opportunities to engage with the industry experts and network with fellow users.

WHO SHOULD ATTEND

Government Agencies, Public Safety, Municipality, Service Providers, Application Developers, Oil & Gas, Airports, Seaports, Public Transportation, Security, Plantations, Utility, Hospitality, Education, Entertainment, Manufacturing, Health Care Services and Others.

REGISTRATION

The seminar is **Free of Charge**. Due to limited seats, participation is limited to two persons/organization on first come-first served basis.

Please register with the Secretariat **not later than Monday, 15 November 2010**.

Tel : 03-5125-9624 / 03-51259615

Should you have any further queries, you can also contact:

Ms. PG Lee (pglee@slwholdings.com.my) T: 03-5125 9611
Cik Ida Khairuniah Idris (ida.khairuniah@cmc.gov.my) T: 03-8688 8265
Pn. Humairah Ahmad Nasir (humairah@mtsfb.org.my) T: 03-8996 5509

Note: Participants may visit MCMC website (www.skmm.gov.my) for more information including to download the presentation papers which will be made available a few days prior to the event.

TENTATIVE PROGRAMME

TIME	AGENDA
08:30	Registration/breakfast
09:15	Welcome address Mr. Toh Swee Hoe Chief Planning & Development Officer Malaysian Communications and Multimedia Commission
09:45	Paper 1 Overview of TETRA Mr. Tuomas Korpilahti Solution Marketing Manager, Cassidian
10:15	Coffee Break
10:45	Paper 2 DART (Digital Access Radio Trunking) Mr. Andrew Lee Director, Segi Maju Consortium Sdn Bhd

TIME	AGENDA
11:15	<p>Paper 3 Interoperability, Resilience & Availability Mr. Phil Kidner CEO, TETRA Association</p>
11:45	<p>Paper 4 TETRA for the Enterprise Mr. Jeff Quek Business Development Manager, Motorola Electronics Pte Ltd</p>
12:15	<p>Paper 5 TETRA Application Technologies and Market Mr. Hannu Aronsson Chairman, TETRA Applications Working Group</p>
12:45	Lunch
14:00	<p>Paper 6 TWISP Application Partnership Program Mr. Tuomas Korpilahti Solution Marketing Manager, Cassidian</p>
14:30	<p>Case study 1 Application of TETRA in the Malaysian Context Mr. Faizi Mokhtar Senior General Manager, Sapura Secured Technologies</p>
15:00	<p>Case Study 2 TETRA Application Developer's Viewpoint Mr. Hannu Aronsson CTO, Portalify Ltd</p>
15:30	<p>Case Study 3 Cassidian TETRA Applications Mr. Tuomas Korpilahti Solution Marketing Manager, Cassidian</p>
16:00	<p>Case Study 4 Full IP Event Driven Integrated Dispatch Systems Mr. Mario Schouten Director Asia Pacific, Kolibri Systems</p>
16:30	Refreshment/End
