ABOUT THE ORGANISATIONS

The Malaysian Communications and Multimedia Commission's primary role is to implement and promote the Government's national policy objectives for the communications and multimedia sector. MCMC also oversees the regulatory framework for the converging industries of telecommunications, broadcasting and on-line activities, in accordance with the national policy objectives set out in the Communications and Multimedia Act 1998 (CMA), as well as postal services and digital certifications.

SIRIM QAS International's contribution to the industrial and economic growth has been acknowledged by the Government, the private sector and also the international community. As Malaysia's leading certification, inspection and testing body, Sirim QAS International offers value added services to customers, both locally and internationally, in an impartial, competent and efficient manner. Its services are recognised by leading national and international organisations and accreditation bodies such as STANDARDS MALAYSIA and UKAS.

Royal Malaysian Customs Department (JKDM) is the government agency responsible for administrating the nation's indirect tax policy. JKDM administers seven main and thirty-nine subsidiary laws. JKDM also implements eighteen laws for other government agencies. JKDM's core business is to collect tax and its vision is to be respected, recognised and a world class Customs Administration.

The Malaysian Technical Standards Forum Bhd (MTSFB) is a forum where relevant parties such as telecommunication operators, vendors, academia, governmental and non-governmental agencies, local authorities, voluntary associations or individuals to formulate and present ideas on the technical standards, technical codes, network interoperability and operational issues. MTSFB is responsible for developing, recommending, modifying, updating and seeking the registration of technical codes from MCMC.

REGISTRATION
