

Industry Talk on Information Network Security
(Taklimat mengenai Keselamatan Maklumat dan Rangkaian)

30 September 2005

SPEAKERS' BIODATA

Zubair Khan

He is a freelance network security consultant. He has been researching mainly on DDoS Attacks and also on various other facets of network security for the past six years. He has given network security consultancy to top organizations of Pakistan. Recently he worked as a network security consultant for C4i of Pakistan. C4i is one of the directorates of Pakistan Army providing secure mode of communication for peacetime and war.

Zubair is founder of hacker's conferences in Pakistan. His two major events Islamabad Hackers Training Camp 2004 and Islamabad Hackers Convention 2005 turned out to be a huge success. These events created a platform for security professionals in Pakistan. He has also conducted security trainings at various forums, which includes government organizations. Chairman of Pakistan Engineering Development Board and Chairman of Pakistan Engineering Council recognize his research and work. His work and efforts to create network security awareness are greatly appreciated by high officials of country and also by media agencies.

Fabio Ghioni

He is an advisor to several Multinational Corporations as well as Governments. He is the leading expert in the field of information security, competitive intelligence and intrusion management in an asymmetric environment. As consultant to several different Government institutions he has been the key to the solution of several terrorism cases in the past. He has also been invited to talk at events such as the G8 summit and briefed leaders of the summit on cyber threats. He has serviced leading international corporations involved in the military, telecommunications, banking and technology industries. His key fields of research range from mobile and wireless competitive security to the classification of information and forensics technologies applied to identity management and ambient intelligence.

Roberto Preatoni

He is the founder of the highly regarded and much referred to defacement/cybercrime archive Zone-H (<http://www.zone-h.org>). He's also CEO of an International ITsec company (Domina Security) which is active in European and former soviet countries. He has been globetrotting, lecturing in several ITsec security conferences, including Defcon in the US. Several print and online newspapers have interviewed him where he shares his experiences relating to cyberwar and cybercrimes.

Anthony Zboralski

He leads Bellua Asia Pacific; an Information Security consulting company based In Jakarta, Indonesia. He has more than 9 years of experience performing penetration tests, assessments, forensics and related services for some of the largest banks in Asia and a dozen Fortune 500 companies including Aerospatiale, Air France, Allianz, AXA, Electricite de France and Lagardere-Matra.

He is also known as Gaius, one of HERT cofounders and wrote some articles for phrack and hert.org (tunnelx, ciscogdb, procx, etc.). Anthony has been involved into hacking and security community since 1989 (started on x25 with otosync and bayernpower [Matthias]). He is 29 now, living in Indonesia with wife and two kids.

Jim Geovedi

He is one of HERT's cofounders. While most of his time goes towards providing information security advisory and training services to private enterprises and government in Indonesia through Bellua Asia Pacific, in his spare time Jim amuses himself by working on open-source security software and operating system development projects.
