Dear Sir,

**Public Inquiry: Allocation of spectrum bands for mobile broadband services in Malaysia**

We would like to thank MCMC in issuing this Public Inquiry (PI) dated 1 July 2019. As spectrum is a critical resource in providing the rakyat superior mobile broadband experience, we welcome MCMC's initiative for requesting feedback on the use of the various spectrum bands, mainly 700, 2300 and 2600MHz.

We have provided the response to all the queries in the paper and have also indicated some parts as Confidential (private data but key points are public) as provided in the PI.

We welcome further questions or inputs if required and look forward to the consideration of our inputs into this critical process.

Thank you.

Sincerely,

**Mariam Bevi Batcha**  
Chief Corporate Affairs Officer
