TENDER FOR THE SUPPLY, DELIVERY, TESTING, COMMISSIONING, TRAINING AND SUPPORT SERVICES FOR MCMC'S VULNERABILITY ASSESSMENT AND PENETRATION TESTING TOOLS (VAPT)

Questions & Answers

No	Questions	Reply by MCMC
1	Regarding the training section, do they want to learn all software mentioned in the first row in 10 days? What topics they need to cover in the training session?	**Hands-on training** of all software, basic knowledge on how to use them. 10 days meaning it can be divided into 2 weeks.
2	What do they mean by installing 2 units of Burp Suite on Ubuntu? 2 units on the same os?	i. Two (2) copies of burp suites to be installed on two (2) virtual machines running Ubuntu.Those virtual machines running in 2 windows laptop, one each. ii. Another two copies to be installed in 2 Apple laptops, one each.
3	Do they want to implement a separate network for their penetration testing? Or will it be located in the existing network? In that case do they want to protect their network with a firewall?	**Out of scope**. All software are to be installed in respective laptops (2 apple & 2 windows). No network configuration needed.
4	If they want to get the certification in any of the mentioned training they have to follow the standard content. Is it possible for them to inform us that for which of the training sessions they want to get the original certifications?	Certification training is **ONLY for IBM Security AppScan Standard for 2 pax**. This is normally conducted in their training facility (licensed training provider). Therefore it is bound to its proprietary training syllabus.
5	What do they generally mean by quantity? Is it the number of license which they want? Or is it the number of installation of the software? For example for Nessus they need license for 1 user but the quantity is 4. What does it mean?	i. For **Para 7 (and its subsidiaries)**, it means quantity of licenses. For illustration: Nessus - 4 licenses (therefore 4 copies of software) ii. For **Para 8 (and its subsidiaries)**, it means number of installations.

6	**Para 7.2.2** The tender document stated that requirement is only for 1 unit of Immunity Canvass. 7.2.2 Immunity CANVAS <table><tr><th>No.</th><th>Component</th><th>Requirement</th><th>Quantity</th></tr><tr><td>1.</td><td>Software</td><td>Immunity CANVAS and shall be compatible with Mac OSX 10.11 (64 bit) or latest.</td><td>1 Unit</td></tr><tr><td>2.</td><td>Version</td><td>Immunity CANVAS **7.07 or latest.**</td><td></td></tr><tr><td>3.</td><td>License</td><td>i. One (1) Single install Perpetual License Bundled with 12 Months Initial Software Update and Upgrade Subscription (SUS), together with **DSquare's D2 Exploitation Pack;** ii. Additional 12 Months Renewal for Software Update and Upgrade Subscription (SUS) for One (1) User License; iii. Unrestricted (no target IP address limitations); and iv. Full source code.</td><td></td></tr></table> However, we noticed that MCMC requested the installation for 2 units as screenshot below:- <table><tr><td>7.</td><td>**Immunity CANVAS**</td><td>Install Immunity CANVAS onto Apple Laptops (7.2.2).</td><td>2 units</td></tr></table> For your information, Immunity CANVAS is licensed by single install basis, two install is two license. The consequences of license breach, is void the license.	For 1 unit of Immunity Canvas, you can install CANVAS on multiple device/user with 1 license.
