HOW TO PROTECT YOURSELF FROM SCAM CALLS

- It is important to remember that scammers sometimes pose as interviewers in order to win your trust.
- If you are asked to participate in any surveys and you are interested in participating, you do not have to answer their questions straight away. If you are in any doubt, ask the interviewer which organisation they are from, their **full name** and **interviewer code**. Then, arrange a time for them to call you back.
- In the meantime, call MCMC's official contact number (03-8688 8000, attn: Statistics and Data Intelligence Department) to ask if the survey is legitimate. If they answer no, or if MCMC can't find any information on the interviewer, it is most likely a scam.
- Do not give your full name, identification card number, credit card or bank account details, as MCMC does not collect any personal information for this survey.
- If you think you have provided your account details to a scammer, contact your bank or financial institution immediately.
