

## Press Release

### MCMC AND MIDA DRIVE STRATEGIC COLLABORATION TO ACCELERATE 5G ADOPTION AND INDUSTRIAL TRANSFORMATION

**KUALA LUMPUR, 12 November 2025** – The Malaysian Communications and Multimedia Commission (MCMC) and the Malaysian Investment Development Authority (MIDA) strengthened their strategic partnership to advance Malaysia’s industrial transformation through the “*Powering Smart Industries*” track at the MIDA Flagship Investment Seminar: The Industrial Cluster Development Initiative for the Central Region, held from 11 to 12 November 2025 at the Royale Chulan Kuala Lumpur.

The seminar convened senior representatives from leading industries, chambers of commerce and government agencies to chart the next phase of regional industrial growth for Malaysia’s highly dynamic corridor, comprising the Federal Territories, Selangor, Negeri Sembilan and Melaka that contributes nearly half of Malaysia’s Gross Domestic Product (GDP) and anchors key sectors including electronics, automotive, logistics and advanced technology.

MCMC’s participation was undertaken as part of the collaborative efforts under the Memorandum of Understanding (MoU) between MCMC and MIDA, signed on 4 July 2024, which includes promoting awareness and readiness for 5G adoption among industries, verticals and Small and Medium Enterprises (SMEs).

To translate strategy into action, MCMC, together with Mobile Network Operators (CelcomDigi, Maxis, TM, U Mobile and YTL) hosted a 5G Technology Showcase and Enterprise 5G Business Clinic, offering enterprises hands-on consultations with solution experts. The showcase demonstrated practical applications of 5G-enabled technologies, from smart manufacturing to real-time analytics, illustrating how these innovations can transform operations and strengthen Malaysia’s industrial ecosystem.

Complementing these efforts, MCMC featured its key national initiatives at the Showcase Pavilion – NEXUS, PRIME, NXT, Check Your Label and *Kempen Internet Selamat* – creating a collaborative platform for awareness-building and industry engagement.

Through these initiatives, MCMC and MIDA reaffirm their strategic commitment to accelerate industrial competitiveness and drive Malaysia's transition towards a 5G-powered economy, ensuring that businesses are equipped to thrive in an increasingly connected world.
